

The Ultimate Work Surface

Stationary strength in a portable table – it almost seems too good to be true. And yet, it's not. Earthlite's MediSport™ is narrow in design, allowing total client access without compromising comfort or style. A heavy-duty frame, low height range, and compact design offer incredible support and stability for osteopaths, chiropractors, and physical therapists. Topped with a firm 1½" high-density cushioning system, the MediSport™ takes the concept of a "working surface" to a whole new level.

Yosemite™

Compact Stationary Shiatsu Table

The Earthlite Yosemite™ was designed for total client access and is perfect for deep tissue bodywork and sports massage. The Yosemite™ comes with powder-coated aluminum adjustable-height legs and Earthlite's patented Shimmy-Lok™ leg braces for ultimate stability. With a firm, yet responsive 2½" cushioning system and our supple Nature's Touch upholstery, the Yosemite™ is *the* choice for Shiatsu and sports medicine practitioners.
